Imagine yourself for a moment, swimming with dolphins along the Kona Coast of Hawaii experiencing nature in a way that expands your ability to trust yourself and access the power of your own inner resources. This seminar combines the best of Energy Psychology and the healing energy of the Big Island of Hawaii to build self-confidence, remove blocks to success, discover your ability to focus intentionality and create powerful positive beliefs.

We look forward to you joining us for the sixth in the series of the *Power of Energy* seminars. Conducted on the beach, the seminar will include a lighthearted approach to learning, optional yoga each morning before the seminar, new powerful integrative healing tools, and swimming with dolphins in the wild that magnifies the positive effect of the seminar. *(Please see the dolphin swim video at www.DrGeorgePratt.com.)*

The seminar will take you to new frontiers of the brain, health, body, mind and spirit. You will learn how to apply new research on healing, happiness, nutrition, exercise, meditation, caring for the brain, relationships, goal-setting and success.

This seminar will be held at the world-class resort built as a Ritz-Carlton and now called The Fairmont Orchid, Hawaii, on the Big Island. It is protected by five sacred mountains, blessed by the sunshine, its waters are home to seahorses and sea turtles, and offers elegant accommodations with four highly acclaimed restaurants. This beautiful oceanfront resort hotel with spectacular views and amenities provides a backdrop to a powerful seminar that will open new doors of intuition, capability for success in life, and ultimate happiness.

Thoughts are real, they have substance and form. This hands-on seminar u

You will have two half-days of memorable experiences with one of nature's most interesting, graceful and intelligent mammals—Hawaiian Spinner dolphins. After a full day of training that prepares you to expand your self-trust and connection with the world around you, our group will go on a chartered boat for two mornings of swimming among dolphins as they make their daily journey along the coast of Kona. Along with a snorkel guide for every six people, you will experience this safe and mind-expanding opportunity to float in Hawaii's warm and crystal clear coastal water as dolphins swim around you. Research indicates a healing effect on mood from interaction with dolphins. The phenomenal feeling of letting go and opening yourself to the experience of the dolphins will be integrated in the training to provide an experiential memory that will endure for a lifetime.

Phillipa Christian has been swimming with dolphins and whales in Hawaii for ten years ever since she left her corporate career. Even though she has had countless encounters with the Hawaiian Spinner dolphins, she reminds us that it can take a one-second look in the eye of a dolphin to have your life changed forever! Phillipa can tell you about so many experiences with the dolphins... and she will share these when you meet her in August.
